# Business Continuity Management : from theory to practice

ISACA requests your attendance for an exciting evening on **Crisis and Business Continuity Management:**

- Seen from both the National and international levels, we'll have the privilege of witnessing feedback from both governmental and financial sectors.
- Approaches to create positive partnerships in the Services and Finance when seeking certification to ISO 22301 requirements on Business continuity management systems.
- We'll also witness how Crisis Management and policy is developed and coordinated at the National and European level.
- A very special evening indeed and an event ISACA Luxembourg Chapter is proud to be able to hold, a must to add to your Calendar.
